Objective

Energetic and creative Software Engineering student passionate about innovation, user experience, and artificial intelligence. With a strong foundation in development, design,backend and storytelling, I aim to build impactful digital solutions that combine logic with aesthetics. I thrive in collaborative, growth-driven environments and seek opportunities to learn, lead, and leave a mark as a future tech professional.

Education

Bachelor of Engineering in Software Engineering
Gandaki College of Engineering and Science, Pokhara
2022 – Present

Higher Secondary (+2)
Motherland Higher Secondary School, Nepal
2019 – 2021

Experience

Web Developer | Prayuja Enterprise
2024

- Developed a functional and visually engaging website for Prayuja Enterprise.

- Implemented responsive layout, smooth navigation, and user-centered design.

- Collaborated effectively with team members to meet branding goals.

Graphic Designer | YouTube & Freelance
2021 – 2023

- Created over 50+ customized thumbnails and visual assets.

- Built a personal visual identity using Canva, Figma, and Photoshop.

- Learned to match audience psychology with design techniques.

Projects

Thrifty – Second-Hand Electronics Platform *(Ongoing)*

- Building a secure and responsive marketplace for buying/selling used devices.

- Working on login/authentication, layout design, and feature integration.

Movie Recommendation UI Design

- Crafted wireframes and high-fidelity UI for a smart recommendation system.

- Emphasized clean interface, interaction design, and user experience flow.

Tour & Travel Package Management System

- Built an application to manage package details, client data, and bookings.

- Practiced database connectivity and frontend development.

E-commerce Website

- Designed and deployed a shopping platform as part of coursework.

- Focused on clean interface, product grid, and interactive elements.
